

## A partnership built for better customer experiences.

Together with Microsoft, we share a vision for the future of the enterprise. Because experience is everything, we've formed a partnership to help you accelerate your digital transformation. Now you can connect the dots between your sales and marketing teams. Increase your productivity with digital workflows and e-signatures. Integrate your content and data to make smarter decisions. And do it all at a global scale, safely and securely.

We're working together behind the scenes to connect Adobe Experience Cloud and Adobe Document Cloud with Microsoft Dynamics 365, Power BI, and Microsoft Azure, so your business can deliver compelling and personalized experiences to each of your consumers, every time.
